

A Message from Williamson-Travis Counties MUD No. 1

Wastewater Line Inspections

As sewer system networks age, the risk of deterioration, blockages, and collapses becomes a major concern. As a result, Williamson-Travis Counties MUD No. 1 is taking proactive measures to improve performance levels of our sewer systems. Cleaning and inspecting sewer lines are essential to maintaining a properly functioning system; these activities further a community's reinvestment into its wastewater infrastructure.

Television (TV) inspections are the most frequently used, most cost efficient in the long term, and most effective method to inspect the internal condition of the sewer system.

Starting on January 27, you will see crews throughout the community conducting the sewer line inspections. We expect the inspection to extend through April.

If you should have any questions or need additional information, please don't hesitate to contact us.

Contact the MUD staff at CSAUS@Inframark.com or 512-246-0498 X 30411, or visit us at the Lakeline Oaks Office, 1000 Old Mill Road, Cedar Park TX 78613, Monday – Friday 8:00 to 5:00.
